

## TO WHOM IT MAY CONCERN

This is to certify that **Hassan Adil** (CNIC: 35202-3011339-1) has successfully completed a 4-month internship with Yavrio as a **AI Software Intern**, from September 17th, 2025, to December 31st, 2025.

Throughout the internship, Hassan focused on high-impact data engineering and automation. He was instrumental in the following key projects:

- **AI Agent Pipelines:** Designing and fixing complex pipelines to enhance agent performance.
- **Data Scraping:** Extracting and processing data from various websites and portals.
- **Scraper Engine for Companies House UK:** Designing and implementing a specialized engine to handle large-scale data retrieval from official UK corporate registries.

Beyond technical expertise, Hassan demonstrated strong collaboration and teamwork skills by actively engaging with peers and mentors. He participated in code reviews, incorporated constructive feedback, and communicated effectively to ensure smooth project progress. His willingness to share ideas, support teammates, and adapt to different working styles highlighted his ability to thrive in a collaborative environment. These qualities make him a reliable and resourceful team player.

We are confident that Hassan will bring the same passion and commitment to his future endeavors and wish him great success ahead.

Sincerely,

DocuSigned by:
